TOUR PROPOSALS IN FRANCIACORTA

❖ Brescia, the Lioness of Italy, a strongly industrialized city but also rich in art and culture, a city of the Mille Miglia mythical race with vintage car, of the Cidneon international festival of lights in the prestigious location of the Castle that dominates the city and the Opera Festival, a great event plenty of music and colours. Brescia also has the largest Roman archaeological area in Northern Italy and testimonies monumental of the Lombards, today a UNESCO heritage site.

❖ Lake Iseo, is a lake basin at the bottom to Val Camonica between the provinces of Brescia and Bergamo, sixth by extension among the Italian lakes. Has the singular distinction of hosting the largest inhabited island in Italy and the highest natural island of Europe: Montisola, already awarded as one of the most beautiful villages in Italy, has also been ranked at third place of the 2019 European Best Destinations. The lake is generally visited throughout the year, you can relax with a walk along the lakefront sipping a good Pirlò (or Spritz) attending concerts or dancing evenings.

❖ Monte Isola is the pearl of Lake Iseo, a mountain in an island, a fishing village that time has jealously guarded, preserving it from the habits of those who frantically live in nearby towns. Transit is allowed only to the public service, to the residents' motorbikes and to the bicycles, instead we reach the shores of the lake thanks to an efficient service of scheduled boats. The most panoramic point of the island is the Sanctuary of the Madonna della Ceriola, a small chapel dating back to the 13th century, located at 600 meters above sea level from which you can enjoy a breath-taking view.

Finally, to note, the two small islands that act as small valleys: to the north Loreto and to the south San Paolo where the artist Christo devised The Floating Piers to connect the latter to Montisola and from there to the mainland up to Sulzano in summer 2016.

❖ The Franciacorta Outlet Village, in Rodengo Saiano, is one of the 5 outlets of the Land of Fashion and is open every day from 10:00 to 20:00. With its 190 stores, 30 of recent construction, offers one

complete proposal ranging from internationally renowned brands to niche brands, at prices reduced even up to 70% throughout the year. Not just brands in the fashion world but also brands prestigious furnishings and lifestyle. The offer is completed thanks to the food and wine stores that combine shopping with the discovery of the flavours of the Brescia area.

"La Ferriera" is the famous wine cellar where wine meets history. It was born in 1800 when an agronomist Pasquale Visocchi decides to introduce, after a fair in Paris, the varieties of Cabernet, Syrah, Petit, Verdot and other in Atina, where it is today. During the tasting it is possible to visit the establishment Borbonico alla Barricaia and to the Bourbon mines, remained intact from the production of weapons and cast iron of 1852.

The characteristic and valuable product of the territory, especially in the area of Atina and Valle di Comino, is the Cannellino di Atina DOP. The latter is a local white agricultural product with a fine tegument, small size and tender consistency. The first certain information that we have about bean cultivation Cannellino di Atina, dating back to the seventeenth century and were derived from an ancient publication written in the days of King Ferdinand II of Bourbon.
